

Press release

Cape Coral, Florida – Nov 19, 2018

pro med instruments, Inc. reopens its redesigned office.

Pro med instruments, Inc. proudly announces the reopening of its newly constructed North American Headquarters located in Cape Coral, FL to accommodate its strong growth and its expanded operations. This step represents another milestone in the history of the Company.

The new office in Southwest Florida includes a modern training and education facility, collaboration and meeting areas for customer interactions and extra space to accommodate expansion of its operations. “It is important for our employees who work in Cape Coral and for our customers who visit us at our location to provide a productive, professional and exciting environment to do business in”, says Urs Brunner, VP & General Manager of pro med instruments, Inc.

In a second phase, PMI will expand its warehouse and logistics operation to keep pace with the demands of the marketplace and to better service its customers across all 50 States and Canada.

PMI, the global leader in cranial stabilization and brain retraction, continues its strong commitment to the medical community and the neurosurgery market.

Today, PMI serves neurosurgeons, hospitals and patients in approximately 140 countries. The privately owned company consists of competent and highly motivated employees, dedicated to improve the quality of our users’ and patient’s lives. “Our focus is to bring innovative solutions with highest reliability and quality to the neurosurgeon”, says Matthias Schuele, President of PMI.
